

René KAKPO

Senior Mobile Engineer (Android, iOS & Cross-Platform)

renkakpo@gmail.com • [LinkedIn](#) • [GitHub](#) • (229) 01 67 90 83 36

Senior Mobile Engineer with 7+ years of experience building high-performance applications across Android, iOS, and cross-platform ecosystems. Expert in Kotlin, Jetpack Compose, SwiftUI, Flutter, React Native, and KMM, with deep knowledge of mobile architecture (Clean Architecture, MVVM), CI/CD, and performance optimization. I have led mobile teams, architected enterprise-grade systems used across Africa and Europe, rebuilt complex apps from the ground up, and improved performance, reliability, and development speed across multiple products. Passionate about product quality, scalable UI systems, and shipping experiences that delight users.

CORE SKILLS

Mobile Technologies

- **Android:** Kotlin, Java, Jetpack Compose, Coroutines, Flow, MVVM
- **iOS:** Swift, SwiftUI, Combine
- **Cross-Platform:** Flutter, React Native, Kotlin Multiplatform Mobile (KMM)

Architecture & Engineering

- Clean Architecture, Modularization, MVVM
- UI Architecture & Design Systems
- Offline-first systems, caching, local databases
- API performance optimization (reduced API response times by 30%)

CI/CD & Tooling

- GitHub Actions, Firebase App Distribution
- Analytics & Monitoring: Crashlytics, Firebase Performance
- Gradle, Fastlane (basic), Jira, Confluence

Testing

- Espresso, Mockito, Unit Testing
- Automated QA pipelines

Soft Skills

- Technical Leadership
- Mentorship
- Cross-functional Collaboration
- Agile/Scrum

WORK EXPERIENCE

[RightCom](#)

Lead Mobile Developer

Remote • Jan 2025 – Today

- Spearhead the design and development of modern mobile applications powering customer experience solutions
- Lead and mentor a team of mobile developers, improving engineering quality and delivery speed.
- Drive end-to-end architecture decisions, ensuring seamless integration with cloud-based systems.

- Improve product performance and stability through optimized architecture, testing, analytics, and CI/CD.

Mobile Developer Advocate

Remote · Jan 2022 – Dec 2024

- Drove adoption of RightCom's mobile solutions, resulting in a 25% increase in product sales.
- Built and supported a developer community, reducing support tickets by 15%.
- Enhanced documentation and onboarding flows, decreasing developer onboarding time by 30%.
- Strengthened developer experience and product visibility across partner ecosystems.

Mobile Application Developer

Remote · Jan 2018 – Dec 2021

- Built and maintained Android applications, contributing to a 20% increase in upselling/cross-selling for RightPlayer.
- Implemented real-time notification systems, reducing customer wait times by 15%.
- Developed RightQ Kiosk features that improved queue management efficiency by 25% across multiple locations.
- Integrated real-time APIs, hardware interactions, and optimized UI flows for enterprise environments.

[WorkerNav](#)

Senior iOS Developer

Remote · Apr 2025 – Nov 2025

- Rebuilt the WorkerNav iOS app (v3) using SwiftUI + Clean Architecture, improving code maintainability and feature scalability.
- Integrated AI-powered reporting modules used by field workers across multiple sites.
- Collaborated with backend and Android teams to deliver consistent cross-platform functionality.
- Improved navigation UX and optimized local data handling to increase worker efficiency.

PROJECTS (Public GitHub)

WeatherWise – [GitHub](#)

A Flutter weather app fetching real-time weather data.

- Integrated live weather APIs using Dio and Provider with offline caching.
- Designed reusable UI components and robust error handling for smooth UX.

Mon Budget – [GitHub](#)

A personal budget management app in Flutter.

- Built with Clean Architecture + MVVM; offline-first local data sync.
- Developed reusable widgets and charts for better scalability.

EDUCATION

Master Degree in Software Architecture

ESGIS | ESGI Paris

CERTIFICATIONS

- Associate Android Developer - Google | 2022
- Meta iOS Developer - Coursera | 2024
- Meta React Native Developer - Coursera | 2023

LANGUAGE PROFICIENCY

- **English:** Upper-Intermediate(B2)
- **French:** Fluent(C2)
